

Angie's Story

Angie graduated from two programs at the Northland Career Center (NCC). Her first was the Health Sciences, which is a secondary program, in 1999. She then graduated from the Practical Nursing program in 2002.

She started her secondary program as a student with a disability. She said that was what her school labeled her but she didn't feel it was accurate. She said, "I just had some strong opinions. At NCC I got a fresh start and they didn't treat me any different. They treated me with respect. The teachers were awesome. I wish I had them all through high school."

Angie competed in Skills USA/VICA Health Knowledge Bowl and her team won at district and competed at the state level. She also had perfect attendance for two years.

Angie is a Nurse Technician at North Kansas City Hospital and is going to school at a local community college. She said, "I found what I wanted to do and my goal is to eventually receive my BSN and become a teacher."
